## Programme

[nics live 800px x 600px.png](#) [1]

Content for NICS Live is developed to showcase the diversity and scope of work being delivered across the NICS. It is shaped around the four pillars of the people strategy and is designed to develop, engage and inspire delegates, providing them with examples of best practice to takeaway and implement in their day-to-day role.

The NICS Live programme consists of plenary and keynote addresses, seminars, and interactive workshop sessions. The events also offer networking opportunities through 1-2-1 spot mentoring sessions and an exhibition space, where many departments and strategic partners showcase their projects and best practice.
